

Londonwide LMCs

The professional voice of London general practice

Professional Lead Fora – General Practice Nurses, Practice Managers and Health Care Support Worker Forum

Practice Manager Forum

The Practice Manager Forum is for those working at the heart of London's general practice - general practice managers, business managers, finance managers, operations managers, and data quality managers. Forum members help shape important decisions made by Londonwide LMCs and their professional experience and contributions can help to make the forum a vibrant and dynamic group.

Londonwide LMCs champions good practice and effective ways of working across the capital, and forum members come together for quarterly meetings to network, discuss and share best practice and experiences, and to receive updates on policy and practice. They also get to hear from interesting and innovative speakers on a range of contemporary and highly relevant topics.

If you would like to become involved please contact Karen Piddington, Project Manager: Karen.Piddington@lmc.org.uk

Health Care Support Worker Forum

We are launching our Health Care Support Worker Forum on 13 June 2019, aimed at Healthcare Assistants, Assistant Practitioners and Trainee Nursing Associates. This is the first opportunity for us to involve and work with HCSW's in this way and we're very excited to see how the forum will evolve and develop over the coming months.

The aim is for HCSW's from across London to come together twice a year at Londonwide, to network with fellow professionals and learn from each other as well as discuss and share best practice and experiences and receive updates on policy and practice.

If you would like to become involved please contact Karen Piddington, Project Manager: Karen.Piddington@lmc.org.uk

General Practice Nurse Leads Forum
