#### Media and public affairs round-up

On 17 October Dr Michelle Drage, our Chief Executive, was quoted in the BMJ, reminding practices they are under no obligation to check the immigration status of patients if asked to do so by secondary care. On 3 October, Michelle was quoted in Pulse, in response to NHS England's decision on changes to the way digital-first GP practices' patient lists will work.

We continue to be very active in promoting the interests of London GPs and practice staff on Twitter, Facebook and LinkedIn. If you have an example of general practice doing something well which could make a news story please get in touch. We also support practices that are approached with media requests. You can find details [here](#).
