

Londonwide LMCs

The professional voice of London general practice

Exciting opportunity for practice managers

For a limited period only, we are pleased to be able to offer you a unique career development opportunity, that's fully funded for practice managers or those aspiring to the role of practice manager.

As part of our Practice Manager Development project, Londonwide LMCs have teamed up with the Practice Manager Association (PMA) to deliver an exciting new accredited e-learning programme, the ILM Excellence in Supporting Healthcare certificate, which normally costs £295.

What is involved

The programme enables learners to choose how, when and where you engage with the modules. It will support you to gain knowledge and skills that can be practically applied, enhance and support your career progression towards social prescribing and senior management. It is broad-based and aims to provide a generic overview of competencies required at Level 2, as well as embodying best practice to support NHS Long Term Plan initiatives.

The programme covers eight key core competencies:

Ethical practice

Effective communication

Information governance

Protecting patients

Motivating and supporting skills

Organising and networking skills

Self-awareness

CQC compliance

Course duration

The 26 units vary in length and time depending on your knowledge and experience. Typically, the course takes 26-52 hours to complete. Further information is available from education@practicemanagersuk.org.

What to do next

Fully funded places are limited. If you or a colleague would like to apply, please contact the PMA for an application form on education@practicemanagersuk.org.

You will need to provide a statement of commitment and a summary of what you intend to achieve, including the benefits and value this will bring to your practice/PCN.
