Calling all general practice managers, business managers, HR managers, finance managers, operational managers, managing partners and site managers

As part of our Practice Manager Development project, we are able to offer you an opportunity to take-up a fully funded place on our General Practice Management Training Programme, which normally costs £1,198 (including VAT). Places are available for a limited time only.

The programme offers comprehensive training for practice managers who are new or returning to general practice, or those aspiring to the role of practice manager.

About the course

The content is written and taught by experienced practice managers for practice managers. It incorporates both face-to-face and e-learning (the face-to-face learning may be delivered via Zoom due to Covid-19 and social distancing measures). It is professionally accredited by the RCGP (Royal College of General Practitioners) and is accredited with 110 CPD points from the CPD Standards Office.
