

Londonwide LMCs

The professional voice of London general practice

Workforce survey spring 2021 initial findings

408 people working across 322 GP practices responded to the survey, representing 29% of the practices in the Londonwide LMCs' area. Half of responding practices have vacancies for any role, almost a third have one or more GP vacancies and over a third have one or more GPs planning to retire in the next three years.

You can view selected slides from the workforce survey [here](#).
