

Londonwide LMCs

The professional voice of London general practice

BH Consults

I have worked closely both within the NHS GP Practice Finance environment and within a supporting role with GP Practices since 2010.

I want GP Practice Finance to work efficiently for Practices so that the strain eases as much as possible for Practice Managers. I understand the stresses and strains of 'having' to do it all within the practice.

I created BHConsults so that I could offer a consultancy service to GP Practices and Practice Managers and I offer support within the following specialist areas:

GP Practice Finance training

Set up and migration to Xero Cloud

Various levels of training on Xero

Support with PCSE On-Line portal (Open Exeter management and troubleshooting, GP Statements, NHS Pensions)

Support on payroll and NHS Pension issues

Support in reviewing PPA drug claim procedures and stock control

Support with Tradeshift billing and management of invoice processing, including debt collection

Troubleshooting NHS finance related issues, including software and IT problems

Support in building and implementing efficient and effective internal operational systems and policies

Reviews of current procedures and enabling more efficient management of the GP Practice Finance Office, including payroll, bookkeeping and payment runs and management reports

Outsourcing of bookkeeping services

Mentoring, coaching, and confidence building using NLP techniques
