

Londonwide LMCs

The professional voice of London general practice

Media Centre

Our communications and media team is always on hand to answer queries on any aspect of general practice across the capital. We are experienced communications professionals who understand the needs of our colleagues across print, broadcast and digital channels. Our spokespeople are well placed to offer journalists comment and analysis. However, as they are busy working GPs, to help us help you meet your deadlines and story angles, please direct all media queries through us here at the media centre.

Assistance with requests from journalists to GP practices

If you work for a practice in one of the 27 boroughs covered by Londonwide LMCs you can get free, expert media advice from us. If you receive a call from a journalist it is perfectly reasonable to write down their question(s), and consult with the Londonwide communications team before responding. You can then contact Alex Orton or Sam Dowling (details below) who will advise you.
