The professional voice of London general practice

## Your LMC

Londonwide LMCs is the professional voice of London general practice.

Local Medical Committees (LMCs) are made up of practicing GPs and practice staff elected by local GPs. LMCs are statutory bodies which are in place to represent the interests of all local GPs and their teams. Londonwide LMCs is the overarching organisation that represents 27 boroughs across the capital. We provide LMCs with support and guidance on pan-London and local issues, via our Sector, Communications, Resources and GP Support directorates.

Providing specialist advice and guidance on a wide range of local and pan-London issues, our focus is helping practices to secure their future. In today's challenging health and social care environment it's a crucial role we undertake with passion, pride and professionalism.
