

## **PMS Contract Reviews – Londonwide LMCs' Bulletin 7 – Important Notice**

As you are aware the PMS contract negotiations are currently on pause across London and Londonwide LMCs have submitted a list of 17 concerns which need to be satisfactorily addressed by NHS England London (NHSEL) before the pause can be lifted and discussions resume. To date, we can advise that we have not received any response from NHSEL.

With this in mind, can we remind all practices that until any other contract is entered into, your existing contract with all its conditions still applies. This means that any current KPI's that you have in your contract are still in place and we would strongly recommend that you continue to work to deliver these.

We will continue to keep you informed.

Please contact us at [pms@lmc.org.uk](mailto:pms@lmc.org.uk) if you have any queries.
