

Newham LMC News

Chair: Dr Surendra Dhariwal

January 2017

Word from the LMC, Dr C M Patel – Joint Vice Chair

My name is CM Patel and I have been working as a GP in Newham for over 30 years. During my time working in Newham I have observed the changes in the diversity and needs of our resident population and I also experienced first-hand the increasing challenges and demands for all GP Practices working in Newham. I have always been an active member of the GP network within Newham but now, having been a LMC member for the last 3 years and recently elected as your Co-vice Chairman for the Newham LMC, I am in a better position to facilitate change and improvement along with ensuring recognition for the hard work we are all doing in general practice. I take this opportunity to urge you to become familiar with your practice allocated LMC representative and share and voice your opinions and concerns. We have bimonthly meetings and any points raised by you all will be discussed and reviewed at that time. Please feel free to speak with me, call me or email me or any of my LMC colleagues at any time with any matter that you wish the LMC team to help you with. Your LMC will continue to strive to work with the CCG and federation to represent and support all our constituent GP practices.

The LMC has identified as one of its key priorities the need to develop closer links with constituents across the borough including sessional GPs. In order to develop these relationships a buddy list has been produced so that every practice has a named LMC member as their point of contact – [click here for the buddy list](#). An open meeting was held in October to provide updates to constituents on the NEL Sustainability and Transformation Plan, Londonwide LMC's GP State of Emergency campaign and how to prepare for your CQC inspection; further events will be organized where a need is identified which could include new models of care. Click here to find further information on [new models of care](#).

Your LMC

Following the LMC elections which took place last summer your LMC is made up of the following members:

- Dr Surendra Dhariwal (Chair)
- Dr Ambadi Gopinathan
- Dr Lise Hertel
- Dr James Lawrie
- Dr Chandrakant Patel (Joint Vice Chair)
- Dr Saidur Rahman
- Dr Anil Shah (Joint Vice Chair)
- Dr Ashwin Shah

Co-opted Members

- Dr Sadek Ahmed (GP Registrar)
- Dr James Madden (GP Registrar)

Observers

- Dahlia Gardner, Practice Manager

You will find general information on the LMC including an up-to-date list of LMC members on the Londonwide LMCs [website](#).

To get in touch with any of your representatives please contact Joni Wilson-Kaye, at the office on 020 3818 6254 or [Joni Wilson-Kaye](#)

LMC Membership

Newly Qualified GPs

Newham LMC are looking to co-opt a newly qualified GP to join the committee. You will be expected to bring issues affecting your colleagues in general practice in lines with the [roles and responsibilities](#).

LMC Practice Nurse Representative

Newham LMC are looking for a practice nurse representative to join the committee; you will be expected to bring issues affecting nurses in general practice to the notice of the LMC and representing the views of constituent practice nurse colleagues in lines with [the roles and responsibilities](#).

If you are looking for a new opportunity to be involved in the politics of general practice in Newham, or want more information, please contact [Joni Wilson-Kaye](#).

GP State of Emergency (GPSOE)

Work is ongoing to develop a range of resources for practice use during this period of crisis. You will find the website includes information on how to handle DNAs (Did not attend) and DWP appeals, prescribing guidance and advice on shared care protocols along with a number of letter templates.

A presentation has been developed for use at your PPG, providing information from a patient perspective on how services are affected, the pressures faced by general practice and the reality behind the government messages publicised in the media around funding and resources.

All of this information, along with other resources for practices to use can be found at www.gpsoe.org.uk. Please feedback to Londonwide LMCs on what other resources you would find useful for your practice to: GPSOE@lmc.org.uk.

Londonwide LMCs Patient Engagement Project

Londonwide LMCs' unique role as the professional voice of London general practice gives us the opportunity to make the case for patient engagement as a key priority for the survival of local practices facing the current extremely challenging financial and policy context.

Londonwide LMCs' new Patient Engagement Project is actively contributing to our wider programme of work in supporting practices' sustainability, including GPSOE as noted above.

The project promotes patient engagement as integral to high quality, sustainable general practice. Working in effective partnership with patients can improve service delivery and outcomes and when patients, GPs and their teams work together on common concerns they represent a formidable force in this time of organisational and financial upheaval and uncertainty.

Practices involved in the development of the Patient Engagement Project include those which can – and do - work collaboratively with patients to help shape services and secure the future of their practice. Practices are also telling us that overcoming barriers to active and inclusive patient engagement can be a significant challenge. The project is committed to supporting practices’ work with their patients to meet that challenge and is currently focusing on developing a delivery programme to support practice work with patients to develop active and effective Patient Participation Groups (PPGs).

If you would like further information on the project please mail patientengage@lmc.org.uk and for details of Londonwide LMCs’ programme of workshops on Patient Participation Groups [click here](#).

GP Forward View (GPFV) Funding Update

The GPFV identified a number of funding streams to ensure firstly the stabilisation of general practice and future provider development as part of a wider sustainability and transformation agenda. It is important that this funding is used for the purpose for which it was intended and LMCs will provide assurance at every level of the process by which GPFV funding will be used. This will include involvement in and assurance of locally produced CCG plans.

NEL Sustainability and Transformation Plan (STP)

The seven CCGs in North East London have formed one STP Board. The STP will be reviewing a number of key areas, some of which affect general practice, with the intention of transforming services to provide long term stability for the provision of healthcare in NE London.

The six LMCs across North East London have formed a working group, a strategic leadership network (SLN) who will meet with representatives from the STP Board and workstream leads to ensure the views of general practice are taken into consideration in the planning process. Each LMC will have a representative who will be the point of contact ensuring that they are representing the views and concerns of general practice within their borough and will also lead and support on a workstream within the overall project. The details can be found below:

Workstream	Lead	Second
Primary Care	Dr Jackie Applebee (Tower Hamlets LMC)	Dr Anne Baldwin (Barking and Havering LMC)
Mental Health	Dr Lise Hertel (Newham LMC)	Dr Mike Grenville (Waltham Forest LMC)
Planned Care (specifically around work we are planning looking at opportunities for clinical productivity)	Dr Anne Baldwin (Barking and Havering LMC)	Dr Ben Molyneux (City and Hackney LMC)
Maternity	Dr Mike Grenville (Waltham Forest LMC)	Dr Lise Hertel (Newham LMC)

Medicines Optimisation	Dr Terry John (Waltham Forest LMC)	Dr Jackie Applebee
Infrastructure (Estates)	Dr Najib Seedat (Redbridge LMC)	Dr Mike Grenville (Waltham Forest LMC)
Technology	Dr Ben Molyneux (City and Hackney LMC)	Dr Najib Seedat (Redbridge LMC)

The LMC will keep you updated on key developments within the STP and how these may affect practices.

Accessible Information Standard

The [Accessible Information Standard](#) aims to ensure that people who have a disability or sensory impairment receive information that can be accessible and understood. Any organisation that provides NHS or adult social care will need to implement these standards and compliance with the accessible information standard SCC11605 (set out in section 250 the Health and Social Care Act).

Since 31 July 2016 GP practices were expected to be fully compliant with all aspects of the standards.

Commissioning organisations, whilst not required to implement the standards themselves, must support compliance by organisations from which they commission services. [The guidance sets](#) out that this could be done by, for example, incentivisation and performance management arrangements. Non-compliant organisations are advised that they lay themselves open to risk of complaints and investigation.

The standard requires organisations to:

- Ask people if they have any information or communication needs, and find out how to meet those needs.
- Record those needs clearly.
- Highlight or flag the person's file or notes so that it is clear that they have the information or communications needs.
- Share people's information and communication needs with other providers of NHS and adult social care, when they have consent to do so.
- Take steps to ensure that people receive information which they can access and understand, and receive communication support if they need it.

Practices do not need to trawl retrospectively through the notes to identify patient needs, but do need to start identifying now how the notes should be marked to identify patient need or what the patient should be asked. This should include obtaining consent for sharing this information with other services, when a new patient registers or opportunistically when they contact the practice. Issues around staff training also need to be addressed, as the processes that practices adopt will likely be checked at Care Quality Commission visits.

Further information is available in the BMA document ['Focus on the Accessible Information Standard for GP practices in England'](#) as well as [FAQs](#).

FGM – Updated GMC Guidance

The GMC has updated its guidance and fact sheet on FGM [click here to read the latest documents](#).

LEAD Events

Our subsidiary company, Londonwide Enterprise Ltd (LEL) was set up to provide affordable, high quality training and educational events for practice teams. The Learning Education and Development (LEAD) events are run on a not for profit basis to keep costs to practices to a minimum.

The LEAD events team is always keen to hear what training is really needed on the ground, so please do get in touch with any ideas you have by emailing lead@lmc.org.uk. We would like to hear from you.

Click here to find further information on [LEAD events](#).
